01 July	1						
02 July	2	08:00	16:00	I was required to create an App that will manage Tests for Kids. Test 1: Farm Animals	I recognized most of the animals easily. I had trouble with the spelling of 'goose'.	4	Siphelele did well in identifying the animals but needs to improve spelling.
03 July	3	08:00	16:00	Kids have named animals as their pictures popped up.		5	
04 July	4	08:00	16:00			4	He could work on recognizing some less common animals.

15 July	11	08:00	16:00	Test 3: Sentence Writing Here the app require the kid to rewrite a sentence or paragraph within the allocated time.	Here I had a bit of a challenge when it came to allocating the time for the kids to complete rewriting the paragraph.	3	Siphelele demonstrated excellent focus in rewriting the sentences within the allocated time. I am confident that she will continue to make great progress

22 July	16	08:00	16:00	After I completed all the requirements of this Test for Kids App, I had to run a couple of test to see if the test can be set and everything works fine.	I learned that testing can take forever if you are the one who was making the system.	5	Siphelele showed great dedication throughout the development and testing phases. Alphabet writing, free writing, and sentence writing, and the scoring system Siphelele got us covered
